3.a.	Water Meter Installation Charge Installation Charges are based on time, materials and equipment (actual costs).	\$32.00 per hour per laborer plus materials and equipment	\$32.00 per hour per laborer plus materials and equipment	Res. 4641	
	All costs of installation of meters over 2" in size shall be paid by the customer at rates determined by the Water Manager based upon costs.				
4.	Temporary Meter Charge During:			Res. 3856	
	Residential Development	\$2.00 per month per single family unit plus additional charge of \$.50 per unit, plus water usage.			
5.	Water Service Turn on	\$11.70 flat fee.		Res. 4641	
6.	Water Pressure Checks	\$11.70 flat fee.		Res. 4641	
7.	Misc. Water Service	Actual costs as determined by Water Superintendent.		Res. 3856	
(C)	Adjustments:			Res. 3856	

The Director of Finance and the Director of Public Works shall jointly each year prior to September 1, compute the actual cost of water purchased or produced on an acre foot basis pursuant to the following formula:

1. Determine the price of water purchased and produced for the preceding fiscal year,

**City of La Habra  
Master Schedule of Fees  
Resolution Adoption: June 4, 2018  
Effective Date: July 1, 2018**

**Part 6.00  
PUBLIC WORKS**

Section Number	Service	Fee - CY 2018	Fee - CY 2019	Authority /Year	LHMC Reference
----------------	---------	---------------	---------------	-----------------	----------------

by computing:

- a. The cost of water purchased from Metropolitan Water District through Municipal Water District of Orange County.
  - b. The cost of water purchased from California Domestic company including commodity charges, stock assessments (on both owner and leased shares), water lease, expense over entitlement charges and all other costs.
  - c. The cost of ground water production including utility charges, depreciation on wells and equipment, financing costs, operational costs and all other costs of producing groundwater.
  - d. The sum of costs from items a,b and c divided by the total acre feet of water purchased and/or produced, to compute an average cost per acre foot of water.
2. The resultant cost of water, as determined above, as compared to a similar computation for the preceding fiscal year, before a commodity index.
  3. The commodity index, as determined above, shall be applied to the commodity rate established in Section A, paragraph 3(a) (or as established by this formula for subsequent years) to establish a new commodity rate to become effective the next succeeding October 1.
  4. The commodity index, as determined above, shall likewise be applied to the "water value" portion of the minimum monthly rate as established in Section A, paragraph 1 in the same manner, effective the next succeeding October 1.
  5. Such rate modifications as may be calculated in 3 and 4 above shall be made to the nearest one cent (\$0.01).
  6. The "Readiness to serve" portion of the minimum charge as established in Section 3
